My dear Dr. Watson,

The book was rec'd
this afternoon, thank you
for the favor. The accom-
panying letter was very
welcome, and from it-

I can fancy you all busy
as ever, and quite as I
left you. The right person
for the library will put in
an appearance in due time

no doubt. I'm sorry, tho', to
have you bothered with the
incoming pamphlets, period-
icals and the like. I wish
I could visit the dig table
before the windows a few
afternoons a week and
keep it clear for you.
About the indexing of
the De Candolle's works.
I am quite sure I finish-
ed the D's. The De Can-
dolle pamphlets I had
not indexed. Is there

some more paper of which you cannot
find? Please to say I have checked
everything I ought not to have. Anything
"that will keep", just lay up for me, and
I will make arrangements when I come home
with the late number to early openings for a
short vacation.

Very truly,
Professor R. Clark
